Dear Managing Director,

We would like to inform you that the processing of tasks concluded with you and related to the archaeological excavation completed in 2008 - following the field work - has started.

Accordingly, the budgeting of tasks related to documentation concerning the preservation and storage of artefacts has been completed, as well. The accounting of costs is available and accessible in our institution both in the current phase and after the complete and final closure of the previously indicated work.

After the completion of artefacts' processing work, a part of the archaeological findings will be exhibited in our institution, within the framework of a temporary, or permanent exhibition, furthermore, the professional results of the excavations will be disclosed also in various publications.

Thank you again for your help provided to our institution in its work to preserve the cultural heritage of the capital city.

Budapest, 01 September, 2008

Sincerely,

[signature]
Dr. Sándor Bodó
Chief Director
